Dear Steve,

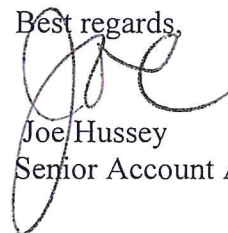

Wanted to express my gratitude to Employee Dave Yantz. Whenever he comes out to do repair work at Presentation church he is always on time, explains the work to be performed and does an excellent job with the repairs.

Last week he went beyond the scope of his normal job, He helped save a gentleman from going into to diabetic shock on a roof. Dave recognize the gentlemen was not acting normal. The job site is normally not occupied doing the week. Dave stayed with the gentleman and alerted me of the situation and together we called 911. Emergency personnel came out and found the gentleman's blood sugar level dropped to 21. They administered meds to get his blood sugar levels back to normal and the gentleman is now OK.

The EMT stated Thank God someone was here to help.

Way to GO DAVE!!!!

Best regards,

Joe Hussey
